

Tweakers.net Best Buy Guide

Amsterdam, The Netherlands, July 8, 2010

Tweakers.net, the biggest online hardware review site in the Netherlands has chosen Club 3D as the video card of choice for the Budget - Midrange, High End and Workstation PC system.

Getting the best components for your PC, whatever your budget Club 3D, is the right choice for you.

PC system described as follows:

BUDGET - MIDRANGE

Budget conscious but still offers gaming potential and upgrade path for under 1000 euros [LINK](#)

HIGH END

Offers supreme performance for heavy multi-tasking and gaming for over 1000 euros [LINK](#)

WORKSTATION

Designed to work with system-hungry applications like Photoshop or 3D rendering software. The focus is primarily on performance, display surface and image quality. System budget of 2000 euros [LINK](#)

[BUDGET - MIDRANGE](#)

[HIGH END](#)
